PRACTICAL AI TRAINING FOR BUSINESS TEAMS

AI training built around your team’s work.

I help your team choose suitable AI tools and apply them to real tasks. We clarify what you need, practise together and turn it into a repeatable workflow.

Sales & partnerships · Operations · Professional services

A PRACTICAL STARTING POINT

Needs assessment + team training

Needs assessment first · 90 minutes live · Materials to keep

HOW WE WORK

01 Clarify tasks, current skills and approved tools.

02 Work through an agreed example together and review the result.

WHAT YOUR TEAM TAKES AWAY

- Tool selection for the agreed task
- A prompt or workflow template
- Quality and source-review checklist
- A concrete next step for daily use

SELECTED INDEPENDENT PROJECTS

Developed with AI assistance. Independent work, not client references.

TRAIN

Bilingual learning application. My role: learning concept, requirements, build and review.

Content Pipeline

Gemini-powered content drafts. My role: use case, format requirements and project build.

Email agent

Experimental Gmail/Claude prototype. My role: workflow definition and build.

B2B SaaS experience since 2021 at Procore, Deel and Taxually. Practical in-house guidance on AI models and general workflows.

Let’s discuss one task your team works on.

Free 30-minute intro · Fixed quote once scope is agreed
